

Thought...

It's unwise to pay too much, but it's unwise to pay too little. When you pay too much you lose a little money, that is all.

When you pay too little, you sometimes lose everything, because the thing you bought was incapable of doing the thing you bought it to do.

The common law of business balance prohibits paying a little and getting a lot. It can't be done.

If you deal with the lowest bidder, it's well to add something for the risk you run. And if you do that, you will have enough to pay for something better.

Store Drawer

(to fit all Land Rovers including the Series I Discovery)

The Store Drawer is easily and neatly mounted between the wheel boxes at the rear giving optimum space and access within the drawer. The unit is the same height as the wheel boxes in Land Rovers, giving a level floor in the back if used in conjunction with the Store Chest.

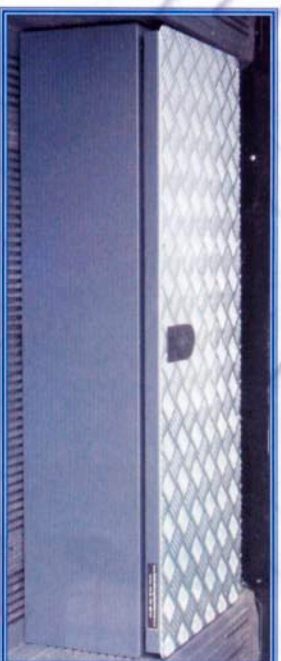

It is safely secured with stainless steel bolts through the floor and reinforcing members underneath with the supplied fitting kit and drilling template. The drawer runners are heavy-duty ball-bearing units rated at 160kgs per pair. The drawer and body is powder coated, this together with an alloy chequer plate top and drawer front, maintains the units good looks for a long hard working life.

All units have a stainless steel locking latch for protection against pilferage. When carrying more sensitive loads, e.g. firearms, medicines, valuables it is advised to use secondary locking positions with quality padlocks. All drawers are supplied with a removable ribbed rubber mat.

The Spacesaver Door utilises every potential storage area that is an important factor on extended trips.

The Discovery unit comes complete with separate side lockers which give a flat floor area in the rear load space of the vehicle. **PLEASE NOTE:** This unit does not fit the Series II Discovery.

The Mobile Storage System

Store Chest

The Store Chest is a very rugged, well-built lockable storage unit. It's easily and neatly mounted between the wheel boxes of Land Rovers but will also fit comfortably into commercial vehicles because of it's design and built-in carrying handles. This unit was originally designed to complement the Store Drawer giving a complete flat floor area in the rear of SWB/90's but can also be installed in 109/110's.

It can be securely mounted using stainless steel bolts supplied and captive nuts within the unit. The body is powder coated and finished with an aluminium chequer plate top giving a rugged finish for a long hardworking life and comes fitted with either one waterproof locking latch or two should you need that little bit extra.

THE STORAGE SYSTEMS HAVE BEEN DESIGNED SPECIFICALLY FOR EXPEDITIONS, SPORTSMEN, TRAVELLERS AND TRADESMEN ALIKE WHO APPRECIATE THEIR VERSATILITY.

Store Caddy

(to fit all Series/90's/110's & Defenders)

The NEW Store Caddy is the most recent addition to the family. Designed to fit between the front seats of Land Rovers, it provides excellent space for items needed readily to hand. It also incorporates a deep padded armrest that is finished in a good quality grey or black vinyl. The unit is manufactured in 1.2mm mild steel, powder coated in either dark grey or black, finished with rolled edges where necessary. The design features a unique vented locking radio compartment, the lid of which, in the open position becomes a very handy resting place for sunglasses, mobile phone, etc. You also have added security for the radio as the main compartment lid also locks the radio compartment. Our modular design allows the radio compartment to be positioned centrally or to either side permitting switches etc, to be fitted alongside. Rubber mats are fitted to all storage areas including the removable internal trinket tray. There are 2 x 28mm holes at the rear of the unit to accommodate cigarette lighter sockets for the use of ancillary equipment, when not used, these can be closed with rubber plugs supplied. You will also find a 28mm hole fitted with a grommet between the radio compartment and main storage area, to allow the fitting of a CD auto-changer or the like. The unit has a High Security, drill-proof lock with two keys. Our unit is installed with a bar that spans the seat box frame under the floor to further the security. Fitting kit and instructions are supplied.

Deluxe and Fully Loaded Model:

All features as above plus the added extras which include a double cup holder/storage tray, the position of which can be moved to suit your or your Land Rovers preference, side map/storage net and removable interior storage pouch. There is also a secret compartment, details of which are disclosed upon purchase only. Two stainless travel mugs, two net pockets and two 12v sockets are included in the Fully-Loaded model.
