

FOR SALE!

1972 Land Rover Series IIA Dormobile

DORMIE FOR SALE...

For the first time, I'm selling one of my Land Rovers - a 1972 Series IIA Dormobile. I love this old truck, but I just don't have the time to use and enjoy it, nor restore it back to original spec, which this vehicle deserves.

It's in great shape and almost drivable (though somewhat slower than 2010 traffic), with a strong 2.6 liter straight-six engine. I've driven it a about 100 miles since I've owned it and I'd be happy to drive it more, after some TLC.

It's a right-hand-drive truck, first registered in the UK in 1972, and then immediately exported to South Africa where it enjoyed an easy life of weekend trips out into the bush. The odometer is showing 53535 miles, and I have no reason to believe that they're not genuine. Retiring from South Africa, it spent a couple of years in Massachusetts, before ending up in Nevada where I discovered it.

Good condition
2.6L straight six
Almost ready for adventure!

...combined with the rugged go-anywhere character of the famous Land-Rover, is a vehicle of supreme versatility and toughness...

It comes with all the Dormobile usuals, except for the table. Everything seems to be working just fine (it always starts first time), though I mention some minor issues on the website. That said, it would not take a lot of work nor would it break the bank to address these issues to have a very usable and fun weekend vehicle.

Personally, I think this vehicle would benefit from a restoration as it's in great shape and the parts are mostly still available, either used or reproductions.

I'm happy to take any questions, send an email, text or call me using the details on the opposite page. The Dormobile is currently in storage in Golden, CO.
